

## Do you identify as belonging to an ethnic minority?

If so ...

Would you like to help us develop a study to understand what life is like for ethnically minoritized older adults living in care homes and their carers?

We are seeking the views of care home residents and relatives from any ethnic minority group to tell us what it is like to make decisions before and during their time in a care home'.

A translator will be provided if required for your voice to be fully heard.

Your views will help us to design a research project on the topic.

## What happens next?

If you decide to take part, we will give you more information about the study. I will organise one to one interview with you alone or with your relative as preferred. You will receive £25 voucher for your time and help.

If you have any questions, please contact Dr Benjamin Ajibade :
